First Sentence of the Body Text

The first sentence of the body text is the first sentence after the <body> tag in the HTML code of your web page. Some search engines give more relevance to search terms when they appear in the first sentence. Some will use your first sentence as the description of your page on the search result page.

Example: <body>Here goes the first sentence. This text is not the first sentence.

IMG ALT Attributes

The attribute defines an alternative text for an image when the user uses a text browser or when the user has turned off the display of images in the web browser application. Microsoft's Internet Explorer displays the alternative text if the user puts the cursor over the graphic. This chapter tries to find out if it makes sense to include the search term in the attributes to improve your rankings.

General Advice

This chapter examines the general search engine compatibility of your web page.

Do the following to improve the ranking for your web page on Google.com for the search term "antique dolls"

- >> Search engines need text to index your web pages, to determine the theme of your web site and to produce a site summary. They cannot read what is written on your graphical images or in a Flash movie. Google recommends to create a useful, information-rich site. Fresh, continuously updated content is one of the best ways to ensure that search engines return to your web site (and your visitors, too). Your web page "http://www.dollsantique.com/" contains only 145 words. It is strongly recommended to add more text to your web page.
- >> Some search engines penalize web sites if the search terms of the Meta Keywords tag don't appear in the body text of the web page. The search term "kestner" of your Meta Keywords tag doesn't seem to be mentioned in the body text of your web page. You should either remove this search term from your Meta Keywords tag, or add the search term to the body text of your web page.
- >> Some search engines penalize web sites if the search terms of the Meta Keywords tag don't appear in the body text of the web page. The search term "china head" of your Meta Keywords tag doesn't seem to be mentioned in the body text of your web page. You should either remove this search term from your Meta Keywords tag, or add the search term to the body text of your web page.
- >> Some search engines penalize web sites if the search terms of the Meta Keywords tag don't appear in the body text of the web page. The search term "simon & halbig" of your Meta Keywords tag doesn't seem to be mentioned in the body text of your web page. You should either remove this search term from your Meta Keywords tag, or add the search term to the body text of your web page.
- >> Some search engines penalize web sites if the search terms of the Meta Keywords tag don't appear in the body text of the web page. The search term "lenci" of your Meta Keywords tag doesn't seem to be mentioned in the body text of your web page. You should either remove this search term from your Meta Keywords tag, or add the search term to the body text of your web page.
- >> Some search engines penalize web sites if the search terms of the Meta Keywords tag don't appear in the body text of the web page. The search term "bliss" of your Meta Keywords tag doesn't seem to be mentioned in the body text of your web page. You should either remove this search term from your Meta Keywords tag, or add the search term to the body text of your web page.
- >> Some search engines penalize web sites if the search terms of the Meta Keywords tag don't appear in the body text of the web page. The search term "volland" of your Meta Keywords tag doesn't seem to be mentioned in the body text of your web page. You should either remove this search term from your Meta Keywords tag, or add the search term to the body text of your web page.
- >> Some search engines penalize web sites if the search terms of the Meta Keywords tag don't appear in the body text of the web page. The search term "raggedy ann" of your Meta Keywords tag doesn't seem to be mentioned in the body text of your web page. You should either remove this search term from your Meta Keywords tag, or add the search term to the body text of your web page.
- >> Some search engines penalize web sites if the search terms of the Meta Keywords tag don't appear in the body text of the web page.
